

# Cactus and Succulent Pruning Tools

Never get poked by your cactus again!

Introducing the "Cactus Pruner" tools, uniquely designed pruning knives with serrated blades and pincers with a variety of grips and tips. The knives come with a straight serrated blade - **Cactus Whacker** - or a heavy-duty angled serrated blade - **Cactus Saw**. Standard length is 18" but custom design can accommodate up to four feet!

Pruning tools can help you maintain show quality off season:

A 44" long **Grabber** can help you reach into your largest plants and remove fallen leaves, etc.

Try our 8" angled **Tweezers** or long tweezers (12", 15", or 18") to help retrieve unwanted matter from your plants and keep them looking beautiful.
